

Unité 4 – Jeux de classe

Qui est-ce ?

Focus: The game is to practise giving basic information about someone. It can be played with a partner or as a whole-class game.

Preparation: Each student chooses a character and completes a *fiche d'identité* with the details. (It could be a character from popular culture, or a literary character, or a character from a television series). There should be a picture of the character.

Jeu :

Student A asks Student B *Qui est-ce ?*

Student B introduces the character, showing a picture, and says:

Voici (name).

Il s'appelle... (full name or first name)

Il / elle est... (nationality)

Il / elle habite à... (name of town)

Il / elle parle... (language spoken)

As a whole-class game, the student could show a photo or picture of the chosen character and only say the given name, not the surname. Then there is a competition to first guess the character and then to supply any of the information details.
