

EVOLUTION OF AUSTRALIAN BIOTA

Chapter 2 The evolution of Australian flora and fauna

Text and website references

Books and journals

Bailey, Jeremy, 'Origin of Life', *Nature Australia*, Autumn 2000

Flannery, T. (2002): *The Future Eaters*, Grove Press, New York, USA

This book describes the geography, flora and fauna of Australasia as well as how it has changed with the eating patterns of humans who arrived over thousands of years ago.

Flannery, T. (2006): *The Weather Makers*, Grove/Atlantic, New York, USA

The subtitle of this book is *How Man Is Changing the Climate and What It Means for Life on Earth*.

Rasmussen, Birger, 'Filamentous microfossils in a 3235-million-year-old volcanogenic massive sulphide deposit', *Nature* 405, 676–9, 2000.
