

EVOLUTION OF AUSTRALIAN BIOTA

Chapter 3 Reproduction and continuity of species

Success of internal and external fertilisation in terrestrial and aquatic environments

- *identify data sources, gather, process and analyse information from secondary sources and use available evidence to discuss the relative success of internal and external fertilisation in relation to the colonisation of terrestrial and aquatic environments*

Linked to page 287

Table 3.3 Advantages and disadvantages for internal and external fertilisation in colonising terrestrial and aquatic environments

Environment	Type of fertilisation	Internal fertilisation	External fertilisation
Terrestrial environment	Advantages		
	Disadvantages		
Aquatic environment	Advantages		
	Disadvantages
